

```
spp_::integral_constant  
< bool, (is_relocatable  
< T >::value && is_relocatable  
    < U >::value) >
```

```
spp_::is_relocatable  
< std::pair< T, U > >
```

A blue arrow points from the `is_relocatable` function call in the right box to the `is_relocatable` function definition in the left box.
